

ALA CARTE PROGRAM

Falcon School District's Nutrition Department runs an ala carte program in all of the schools in conjunction with the National School Lunch and Breakfast programs. Ala carte options at the elementary schools are limited to second servings of an entrée, fruit and vegetables, milk, juice and in some schools small water.

At the middle and high school levels our program is more extensive to offer the students a wider selection. We do encourage the students to choose a traditional school meal over ala carte items as it provides the greatest value and nutrition . Ala carte items purchased separately from the school breakfast or lunch are charged at a per item price.

If a family doesn't want their student to purchase ala carte items they need to send the "Opt Out Of Ala Carte" form to the schools kitchen.

For further information on the ala carte program at your students school please contact the Nutrition manager at the school.
