Busy Schedule? That's OK...There is Still Time

The fall can be a very busy time for parents.

Time becomes precious in the midst of getting children off to

school and to extra-curricular activities, helping with homework, and tending to workplace and household responsibilities. Unfortunately, the first thing we often put off is our own workout!

But, the message is simple: the benefits of physical activity are numerous and can occur at relatively low volumes and in small bouts. Therefore, even in a busy agenda, there's time for staying active.

These tips will guide you through a fit and healthy this fall.

- Walk. It's simple and can be done anywhere.
- Take the stairs...try power walking them,

then going two steps at a time...

- Active commute whenever possible. Walk the kids to school vs. driving them.
- Treat your lunch hour as your golden hour (visit a trail or park).
- Get active during your child's afterschool programming. Walk/jog/run around the field as you watch his or her soccer practice.
- Note time spent web browsing and watching television and reduce that time a little each day (substitute screen time with backyard play with the kids).
- Exercise first thing in the morning so you won't put it off when you get busy later.
- Try adding multiple 10 minute bouts of activity throughout the day. Accumulating multiple bouts is equivalent to a longer session!
