

NUTRITION SERVICES

Walnut Valley Unified School District

We are currently experiencing some challenges procuring food items from our vendors.

This is due in part to the high demand from many school districts.

We are also working hard to meet the increasing demand for food at all of our school sites.

As we work through these challenges please note that the previously published menus are no longer valid.

We are sorry for any inconvenience that this may cause!

We truly appreciate your support and patience during this unprecedented time.
