

# Free & Reduced

## What are the benefits of applying besides free or reduced meals?

### Extra Benefits for our families (that go beyond free or reduced price meals!):

1. Discounted summer school tuition
2. Discounted Advanced Placement exam fee and possible Fine Arts discounts
3. Free summer meals at select Galveston County locations for kids and teens, 18 and younger
4. Discounted SAT and ACT test fees, and free college application fees
5. Eligibility to participate in PK programs
6. Discounts offered on most course fees
7. Discounts offered at various times on technology equipment
8. Discounts on Athletic Strength and Conditioning summer camp fees

### Impact on Santa Fe ISD Students:

1. Program identification provides additional resources for tutoring services for students.
2. Program identification allows the district to expand the number of staff members providing special services to students. This allows for more one on one interaction with students.
3. Program identification allows for area eligibility for after school snacks so all students can participate with free snacks.
4. Program identification provides additional technology resources for students through the federal E-Rate program.

How does this affect my family and the District?

### Impact on our Community:

As you can see, the benefits of free and reduced qualification do not only apply to receiving school meals free or at a reduced rate, but it provides many other discounts and benefits to our families and to the District overall.

It is important that every family is aware of these benefits and encourage other families to apply for the benefits that they may be eligible to receive. Your help is essential!
